## THE FIRE COMES

ALARM TURNED IN AT NOON WITH WATER OFF.

## FOUGHT WITH BUCKETS

Facility of Trying to Check Big Blaze Shown in the Work at the Manes Home.

And today the fire came.

A great misfortune for the persons living in the house, it was a god-send to the city that it was isolated, rather than in the business section or other closely populated districts of the town. But another thing that is of grave import to Maryville still, is the fact that the utter futility of trying to fight a big blaze under the present condition of the water supply was shown.

The fire today was at the home of H. G. Manes at the end of North Mulberry street. It was discovered just at noon by Miss Verna Alecy, who lives in the first house south of the Manes home.

Miss Alecy was sitting down to dinner and remarked to the other members of the family that she smelled smoke. Looking out of the window she saw flames around the kitchen flue on the roof of the Manes home. She immediately turned in an alarm and then ran over to the burning house to see what could be done.

Little Girl Was Alone and Asleep.

Eva Manes, the eleven year old daughter of Mr. and Mrs. Manes, was alone in the house and lying asleep on the davenport in the front room. She had been sick all morning, and after lighting the stove to cook dinner had gone into the other room to lie down. Her father and mother were both away from home working. The girl was awakened and taken away from the house.

By that time other neighbors had arrived, but all they could do was to carry the furniture out of the house, for they could get no water.

When the alarm was turned in, Manager L. A. Denny of the water company was down town. He hurried to the water tower in an automobile and opened the valve which let the water into the mains, but the gravity pressure from the tower was not enough to raise the water to the roof of the one and a half story building.

Couldn't Throw Water On Roof.

The fire department ran out on Mulberry street and had to go back by way of North Main to Ninth street before a hydrant could be found with which to connect the hose. Meanwhile chemical extinguishers from the wagon and some brought in automobiles from the electric light plant were used, but they failed to put out the flames. Water was carried in buckets and tubs from neighboring wells and dirt was used in an effort to quench the blaze, but little headway was gained.

At last a lead of hose was stretched from the fire plug and the water turned on, but when the men climbed the ladder to the roof the water barely flowed over the end of the nozzle. The hose had to be brought to the ground and used for filling buckets with which the fire was fought.

At one o'clock, when the blaze had been put out, the water pressure was just beginning to increase.

The kitchen, roof and upper room of the house were damaged so as to be almost totally ruined. The house is owned by Mrs. Stella Brash of St. Louis.

Kentucky Guest to Come.

Miss Alice Porter, of the Maryville Conservatory faculty, is expecting a visit from her sister, Miss Lucile, of Winchester, Ky., who will arrive the last of the week.

## ADMIRAL JELlicoe

British Commander Directing Movements Of Fleet In North Sea.

BAND WILL GIVE DANCE.

A Full Orchestra to Play in Calumet Hall After Concert.

The Maryville Concert band will give a benefit dance tomorrow night in Calumet Hall.

The dance will not begin until after the band's weekly Thursday night concert in the courthouse yard. A full orchestra will be provided to play for the dance.

This will be the first of a series of dances the band intends to give.

## MEET POSTPONED.

Home Department Sessions to be Called Off This Month.

The regular meeting of the home department of the Parent-Teachers association to have been held the last of the week has been called off, owing to the chautauqua dates coming at the same time.

As this was the final meeting of the season for this department of the association, its work will be consolidated with the Parent-Teachers association and the work will be taken up after the opening of the public schools and continue throughout the school year.

## HOME COMING WEEK SET.

New Dates to Avoid Conflict with M. E. Conference Are October 13 to 17.

The new dates for Maryville's Home coming are the five days from October 13 to 17. This is a week later than the time first chosen, but because of a conflict with the Missouri Conference of the Methodist Episcopal church the change was made.

The entertainment committee has been authorized to contract for amusements, invitations will be printed and placed where the town people can get them to send to friends, and the more detailed work of arranging for the week will begin soon.

## To Visit in St. Joseph.

Mrs. C. D. Hooker left this morning for St. Joseph for a few days visit with her niece, Mrs. John Koch and family.

## Left For Kansas City.

Miss Orlena Hopley went to Kansas City this morning to spend a couple of weeks at the wholesale millinery houses.

## Motored to St. Joseph.

Mrs. M. J. Willhoyte and son, Ernest who live northwest of the city drove to St. Joseph in their car yesterday to spend the day with friends.

## Home From Kansas.

Mrs. Lincoln Bent and daughter, Nina, returned yesterday from a three weeks visit with relatives and friends at Stockton, Kansas.

Mrs. Fred Jamison was operated on this morning at St. Francis hospital. She stood the operation nicely.

## SERVICE BETTERS

WATER TURNED ON FOR A TIME THIS MORNING.

## MAY START SCHEDULE

Water Tower Is Filled—Reservoir Has Gained an Inch—Sandpoint Expected Today or Tomorrow.

Maryville awoke this morning to find that she could get breakfast and wash the dishes with city water. The pressure was on for an hour or two, and in the business section most of the morning. It was then turned off, but will probably be resumed again for an hour or two at supper time.

More water was brought down the river yesterday than any previous day during the present drouth. The company was able to fill the water tower by 1 o'clock this morning, running it over before the pumps could be stopped. It holds 150,000 gallons, which are being reserved for fire protection. An inch of water was gained in the reservoir yesterday.

For the next few days an effort will be made to observe a regular three-hour schedule, and water will be pumped to the city during each meal hour.

Today the men who are up the river pumping out the pools moved to a new one which contains a pretty good supply of water. This pool is about a quarter of a mile long.

The sandpoint ordered from St. Louis is expected to arrive today or tomorrow and will be sunk in the well dug as soon as it arrives. Mayor Wright said this morning that if it proved at all satisfactory he thought the city would order two or three more immediately.

J. L. Sybrant of the Ludlow Valve company, is here from Kansas City to begin the work of putting the two steel gates in the dam. At present the gateways are boarded up with plank. With the new gates in, they can be opened each year and the sediment deposited behind the dam cleaned away.

The board of public works intends to have the dredge boat, when it reaches Maryville, widen the river bed to sixty feet and deepen it to twelve feet for a distance of a mile above the dam. For some distance north of Maryville the drainage ditch will follow the bed of the river.

The members of the board are almost in constant session these days, carefully watching the situation and handling it in the best way they can.

## FELL DEAD LAST NIGHT.

Rev. A. D. Brown, Pastor of A. M. E. Church Dies Suddenly.

Daniel A. Brown, pastor of the A. M. E. church, dropped dead last night at his home 128 South Vine street. A view inquest was held by Coroner Dr. Will Wallis, Jr., who found death to be caused by organic heart failure.

Rev. Brown and his wife had just retired at about twelve o'clock. Shortly afterwards he complained of ill feeling and attempted to get up. He fell to the floor and died in a few moments and before his wife could summon help.

No arrangements will be made for the funeral until the arrival of a daughter and brother from Ottumwa, Iowa.

## Agricultural Man Here.

W. E. Pennington of the U. S. department of agriculture at Washington, D. C., is in Maryville today. In company with Prof. J. E. Cameron of the Normal agricultural department, he is visiting some of the wheat fields that were so badly infected with the Hessian Fly.

## Illinois Guests Arrive.

Mrs. Mary Kinsella and daughters, Ruth, and Mr. and Mrs. J. E. Wallace of Clayton, Ill., are visiting in the city, the guests of William Hopley and Marion Kinsella and families. The visitors will remain until after the chautauqua.

## Motor to Tarkio.

Mr. and Mrs. Alfred Shackelford and family and Miss Esther Faris left this morning in the Shackelford car for Tarkio. Miss Faris has been attending the Normal and will spend the remainder of the vacation with her parents in Tarkio.

Mr. and Mrs. Paul Fraser and little son of Kansas City, arrived Saturday night for a two weeks' visit with Mr. Fraser's parents, Mr. and Mrs. Elmer Fraser. Mr. Fraser is connected with the Standard Oil Company at Kansas City.

## ROAD WORK SLACK

NODAWAY'S CAMPAIGN ENDS TODAY WITH LITTLE DONE.

## REASONS ARE GIVEN

John Clary Says Highways Should Be Widened and Tells How It Is Best Done.

Today ends Nodaway County two days of good roads work, and very little work has been done on them holo. Only in a few districts has anything been done, and even in them it has been hard to work up much enthusiasm. C. G. Swinford, B. T. Wray and C. B. Leach, members of the Union township board, made a call for laborers, but not very much was accomplished yesterday. Today some more interest has been taken in the movement.

The most work has been done near Conception under the direction of William Corcoran.

For the most part, however, the roads have been untouched, the weeds are still growing high along them, and nobody seems to pay any attention to the campaign.

As far as can be learned, J. Arthur Wray is the only Maryville man who offered to work on the roads.

Several reasons are given for the lack of interest in the road work here. The first is that the movement has never aroused a great amount of enthusiasm. Another is that the farmers of the county have given much of their time to hauling sand, cement and dirt and in making fills for the township and county work that is going on this year.

Other farm work, together with the fact that this is a bad time of year for grading the roads or doing much of anything with them that will disturb the dirt also, discouraging great activity in the campaign.

The suggestion of the state highway commissioner Buffum that roads be widened to forty feet is strongly indorsed by John Clary, county highway engineer. Mr. Clary says that the roads are too narrow and too high and too soft in the center. From now on until winter he says, the roads should be worked in the following manner: Enough furrows should be plowed at each side to widen them to the proper width. This dirt and sod should be left to rot all winter. Then in the spring it can be graded and dragged over the roads without filling them with clods, stubble and trash.

## WATER FLOODS SCHOOL.

Plumbing in Franklin Building Left Open Last Night and Basement Is Soaked.

When the workmen who are repairing the Franklin school building quit last night they left the plumbing connections open and when the city water was turned on the building was flooded.

This morning the janitor found the water running from the faucets and pipes. The hall floor and some of the basement rooms were filled with an inch or two of water.

## To Visit in Illinois.

## Jones-Westbrook.

The marriage of Miss Marie A. Jones and Mr. Wellington M. Westbrook took place this afternoon at the home of the bride's mother, Mrs. J. L. Jones, 625 West First street. On account of the recent bereavement of the family in the death of the bride's father, Rev. J. L. Jones, the wedding arrangements were observed very simply and only the relatives and a few close friends attended. The ceremony was performed at 3:45 o'clock, the Rev. Lewis M. Hale, pastor of the First Baptist church, reading the ring service. The home decorations were carried out in green and white, ferns and white blossoms being used. Preceding and during the ceremony, Miss Alice Porter played "Meditation" from Thal's. The bride was attired in simply fashioned gown of white brocade crepe and carried a shower bouquet of white roses and valley lilies. Her going away gown was of black chiffon broad cloth and with it was worn a small black velvet hat. The relatives and friends who witnessed the ceremony were the bride's grandmother, Mrs. Henry Toel of Des Moines, Ia., Mrs. Lewis Jones of Enid, Okla., Mr. and Mrs. John Herren, Mr. and Mrs. Will Toel, Mr. and Mrs. George Greeson of Graham, Mr. and Mrs. Raymond Jones, Mr. and Mrs. Alfred Jones, Mr. and Mrs. Ray Masters, Rev. and Mrs. Lewis M. Hale, Mr. and Mrs. Bruce Montgomery, Mr. and Mrs. George Toel of St. Joseph, Miss Brownie Toel, Miss Alice Porter, Miss Hazel Everhart, Prof. P. O. Landon, George Herren, Will Montgomery, Dr. E. C. Branigan and G. B. Holmes, Jr. Immediately after the ceremony the newly weds left on the Burlington train for a Southern trip. They will be at home after September 1, at 625 West First street. The bride has been a member of the Maryville Conservatory faculty or several years and is one of the most talented and attractive young women in the city. After completing her work in the city high school, she was graduated from the Conservatory in which later she was a teacher and then went to Chicago where she studied at the Chicago Conservatory under the best voice instructors, commencing (Continued on Page 3)

## IS LEAVING LIEGE

GERMAN ARMY BEGINS ADVANCE THROUGH BELGIUM.

## MOVES TOWARD ALLIES

Russian Commander Orders Fine To Quit Town—Ships Stop Because of German Mines in Sea.

(By American Press.)

Brussels, via London, August 11.—The German army is moving by details from its position before Liege and is advancing through a part of Belgium. The main body of the German cavalry is engaged in a forward movement along the frontier guarded by the allied armies.

London, August 11.—The Russian commander of the fortress at Seborg, Finland, has ordered all the inhabitants of that place and of Helsinki to leave. He issued these orders in the belief that a battle or heavy bombardment is imminent.

The Copenhagen correspondent of the London Daily Mail reports as certain the sinking of a German torpedo boat off South Gledes, August 5. The cause of the boat's destruction is not certain, however, but it is believed to have been due to a boiler explosion or to a mine laid by a German warship. All Danish and Swedish steamers have stopped running as a result of the information that the Germans have filled the sea with mines.

## FARNAN FUNERALS TOMORROW

Services To Be Held Thursday Morning at Conception Abbey.

The funeral services of William Farnan, the son of Mr. and Mrs. Farnan, of Clyde, who died Tuesday afternoon, will be held at ten o'clock tomorrow morning at Conception Abbey. The interment will be made in Conception cemetery.

The deceased was seventeen years old and was the youngest one of the family. He leaves besides his parents four brothers, Christopher, Charles, Joseph and Mathew, Jr., all living near Clyde.

## AUTO NEARLY DESTROYED

Catches Fire From Engine—Top Is Burned Off and Car Damaged.

While Chris From of Clyde, was making a quick drive with his car yesterday afternoon, the machine caught fire from the engine. Mr. From and the men accompanying him, took off their coats and beat out the fire but could not quell the blaze until the entire top of the car was burned off and considerable damage was done.

## Base Ball Tournament.

The Hopkins base ball tournament opened at Hopkins this Wednesday afternoon, and there are five teams entered being Maryville All Stars, Sheridan, Lennox, Ia., and Hopkins. A double header will be played each afternoon during Wednesday, Thursday and Friday, commencing at two o'clock. The winner will receive a purse of \$125, second team \$100, third \$75, and last place \$50.

## Special Train From Shenandoah.

Special train service will be given on the Wabash tomorrow for the Shenandoah county fair. Passengers can leave at 6 or 7:47 tomorrow morning and return on a special train run from Shenandoah to Stanberry, leaving Shenandoah at midnight tomorrow night.

John Munn, of Bay Minette, Ala., arrived in the city Tuesday night for a four or five days visit here. Mr. Munn was formerly a resident of this city and is now engaged in farming near Bay Minette.

## FRENCH ADVANCE CHECKED

### French and German Armies In Contact.

### EVACUATE MUELHAUSEN

French Invaders Take Up Positions Outside.

### PARIS HEARS OF VICTORIES.

#### WAR NEWS SUMMARIZED.

German forces are making careful reconnaissance in the district of Hesbaye, which is believed to mean that Germany will take the offensive north of Liege.

The German cruisers Goeben and Breslau, for which British and French warships were waiting, have taken refuge in the Dardanelles. Clashes between Austrians and Russians so far have been of minor importance.

A Copenhagen dispatch announces that Russian mobilization will be complete on Aug. 21.

Several Australian warships have joined the British squadron in east Asiatic waters.

Recruiting goes on in London for overseas service.

The Cunard liner Lusitania, in its dash across the Atlantic, has reached the Mersey in safety.

London, Aug. 12.—Two salient points emerge from the latest news of the great war. The first and most striking is what is described here as "the silent victory."

This applies to the fact that the North sea, over which absolute silence has brooded so long, is now open to shipping without serious danger. The steamship services from Denmark to London and from Newcastle to Norway are being resumed, while the steamship services between the Hook of Holland and Harwich have suffered no interruption.

These facts, in the opinion of the authorities here, imply that the German fleet for the time being is safely held in check.

The second point is that the French have been obliged to evacuate Muelhausen and occupy new positions outside the town.

According to German reports this was the first important battle of the campaign and the French, who had 55,000 men, suffered a serious check. In Belgium the position shows little change.

The Germans have occupied Tongres and are reported to have captured a railway station twenty-four miles from Liege. Outpost affairs of no great importance are reported at different points of the many nations engaged in the war.

#### Fighting All Along Line.

Paris, Aug. 12.—The French troops along the entire front are in contact with the Germans. At Mangiennes, northeast of Verdun, the Germans attacked the French. The French, reinforced by reserves, then took the offensive and repulsed the Germans with considerable losses. One German battery was destroyed by the French artillery fire, and another was captured, with three Gatling guns and ammunition.

A regiment of German cavalry suffered seriously. Near Moncel, a German battalion, with artillery, was repulsed. The German losses are said to be heavy.

The village of Lagarde, in German territory, was taken by the French at the point of the bayonet.

German forces appeared at Longwy and demanded the surrender of the town, which was refused.

#### Plans Raid on U. S. Gold Supply.

New York, Aug. 12.—The most interesting report in the financial district was the rumor that the Bank of England proposes establishing a branch at Ottawa, Canada. Bankers here see in such a move what they call an attempt on the part of the great British institution to pile up large amounts of credit with this country which we may have to pay in gold shipments to the Dominion.

#### Coast Defense Guns Are to Practice.

New York, Aug. 12.—Colonel S. E. Allen, coast defense commander at Fort Hancock, Sandy Hook, N. J., gave warning to shipping interests that there will be target practice next Tuesday night with the great coast defense guns and mortars at the fort.

#### Yankee Woman to Join Red Cross.

London, Aug. 12.—Mrs. George Law of New York left London by automobile, bound for Havre. It is her intention to join the French Red Cross.

## MINING OF NORTH SEA SHUTS PORTS

Indiscriminate Planting of Mines Makes Navigation Unsafe.

### TREASURE SHIPS IN DANGER.

Returning Tourists May Now Have to Make Their Way to Southern Ports or Remain Where They Are—Neutral Ports Are Blockaded.

Washington, Aug. 12.—Mining of the North sea as part of the plan of the European war not only may close most of the northern European ports to navigation, but the golden laden cruisers Tennessee and North Carolina and neutral passenger vessels bearing Americans from Europe, will be confronted with new dangers.

The American government was formally advised by the British embassy that inasmuch as Germany had been "scattering mines indiscriminately," Great Britain could no longer refrain from planting mines near its own ports.

Secretary Bryan said Americans at home might rest assured that the passenger lines plying between northern European ports would take no chances that would imperil life.

#### Americans Must Remain.

It is believed that Americans in northern ports will remain there for the present or make their way south and southeast to such ports as Marseilles or Lisbon to obtain passage for the United States. An itinerary for the cruisers Tennessee and North Carolina bearing millions in gold for the relief of Americans has never been announced, but as both Great Britain and Germany have given warning of the dangers in the North sea, it is being taken for granted here that none of the American warships will venture into those waters. After touching at Falmouth, England, the treasure ships probably will land at some port in France and then head for the Mediterranean, endeavoring, it is thought, to reach Americans in both Germany and Austria from points in the Adriatic.

#### Neutral Ports Mined.

One diplomatist pointed out that the ports of four neutral nations, Norway, Sweden, Denmark and the Netherlands as well as one of the belligerents—Belgium—were practically blockaded through the promiscuous planting of mines in the North sea.

The Hague convention, which regulates the use of contact mines, stipulates that the belligerents shall undertake to their utmost to render these mines harmless within a limited time, and should they cease to be under surveillance to notify the danger zones, as soon as military exigencies permit. Naval observers here believe, however, that in view of the titanic struggle this article in the convention will be of little moment.

### PRESIDENT'S WIFE BURIED

Rain Falls in Torrents as Coffin is Lowered into Grave.

Rome, Ga., Aug. 12.—Mrs. Woodrow Wilson, wife of the nation's president, was buried here at Myrtle Hill cemetery. Rain fell in torrents while the coffin was being lowered into the grave, which is beside those of Mrs. Wilson's father and mother, almost within sight of the house in which she lived as a girl.

President Wilson remained by the grave until the casket had been covered with concrete and steel. At the head of the grave there stands a plain white stone, bearing the names of Mrs. Wilson's father and mother. It is understood the president later will have a larger monument erected.

As the president returned to his private car he passed between double lines of national guardsmen.

#### House Passes Railway Mail Bill.

Washington, Aug. 12.—By a vote of 163 to 81 the house struck out of the railway mail bill the Cullup amendment removing all assistant postmasters, clerks and employees in local postoffices from civil service. The bill was then passed. It revises the present system of computing compensation of railroads carrying the mail and prescribes an examination for all present assistant postmasters.

#### England Bars Landing of Foreigners.

Washington, Aug. 12.—Reports that Great Britain has forbidden the landing of all foreigners on its shores caused Secretary Bryan to cable Ambassador Page instructions to investigate, and if he finds that they are true to lodge an urgent protest with the British foreign office.

#### 45,000 Japs Embark on Transports.

Shanghai, Aug. 12.—The captain of a Japanese vessel which arrived here reported that 45,000 Japanese soldiers had embarked on transports and were awaiting orders. He said he believed their destination was Tsingtau, the German possession in China.

#### American Assisted.

Copenhagen, Aug. 12.—It is announced from Berlin that 25,000 Americans, whose journeys were interrupted by the war, are within the German frontier. Many are without resources, but are being assisted so far as available means permit.

## Chautauqua Next Saturday

Till Breit is sick.

Miss Effie Richards returned home Monday from the summer term of the Maryville state normal. She will teach the Pleasant View school northeast of Guilford this winter.

Nearly every one of the citizens of the valley attended the Barnard picnic one or two days.

Till Breit had a new cement cave, 6 x 12, built on his place last week. James Jackson of Bolckow was the workman.

Dan Skidmore's new house is going up rapidly. Sern Nelson, K. C. Knudson, George Jackson, Al Hailey and Claude Richards are doing the carpenter work.

Mike Byergo's new house is being plastered now.

E. Halfhill moved a barn for F. P. Graham in Old Guilford one day last week.

W. B. Torrance is hauling sand now. He is going to put in a cement foundation under his house and plaster it.

John Brinson and family, who live west of Bolckow, visited Saturday evening and Sunday at K. C. Knudson's. Born to Mr. and Mrs. James Neilson a girl, Friday morning.

Glen Lincoln cut three of the fingers of his right hand nearly off on a circle saw one day last week. He is getting along very well.

On Monday thirty autos from King City passed through Guilford advertising the King City chautauqua. They went on toward Stanberry.

Mr. and Mrs. Leslie Scheidtnecht returned Monday from a ten days' visit in Trenton, Mo., with relatives.

Alma Nelson who had spent the spring and summer in St. Louis and Springfield returned home Saturday.

John Hawley, son of Eber Hawley of Worth, Mo., returned Monday to St. Joseph to his work in a large department store, after a visit with relatives and friends in Guilford.

John R. Hubble and James Hubble returned last week from a trip to Indiana. They say it is dry back there.

The ladies of the Arkoe Methodist church will have an ice cream social Friday night, August 14. Everyone cordially invited.

#### Whom the Gods Would Destroy.

Ancient history closed at midnight of July 31, 1914. The monstrous war with which modern history begins will end, as the big and little wars of the old days did. This is hard to realize now, but the sooner those men upon whom will fall the duty of shaping a new order of things begin to think about their problem, the better it will be for all concerned.

There will be some accounts to be settled after peace is declared, and the biggest one will be that which Enlightenment has against Mediaevalism.

Whatever causes of strife may have been lurking in the minds of the peoples of Europe, they would not have massed and exploded in this demoniac war without the agency of the Head Devils. Race differences there are.

Conflicting national interests there are. The growth of populations already dense, and looking for new opportunities for enterprise and livelihood, has been disturbing economic equilibrium. Religious antagonisms have fostered hatred. But none of these things by itself, nor all of them in combination, would have made war if the consuming vanity, the monstrous egotism and the mediaeval-mindedness of the absolute monarchs had not been thrown into the scale.

When the work of devastation is done there will be left the stricken, sobered peoples. Every family will have lost father or son, husband or brother. Resources will have been swept away. Industry will have been paralyzed. Farms will have been stripped, villages, towns and cities desolated. But fortitude and courage will be left, and men will get themselves about the task of building a new civilization.

They will not be tolerant of pious hypocrites asserting divine right, and claiming to be viceagents of God. They will not be tolerant of taxes for the wanton expenditures of royal families. They will not deprive themselves of the necessities of life to enrich the manufacturers of artillery and powder. They will cross these items from their ledgers, and turn their attention to the creation of a social order under which men and women who are content to dwell peacefully on their own reservations can enjoy liberty and pursue happiness.

Whom the gods would first destroy they first make mad. Mad with the lust of power, drunk with their own egotism, the Head Devils have signed their own doom. Their days are numbered. The monarchs must go—and they will.—The Independent.

## WHY THE ILLINOY IS BEST

### Cold Weather Terrors Need Not Exist

with an ILLINOY HEATER. It is heater perfection. It supplies super-heated air to fire-box, burns all the volatile gases and carbon, cokes the unburned coal, prevents loss through imperfect combustion; keeps up perfect circulation of warm air in room—draws air from floor and discharges hot air from top. Burns all fuel perfectly; therefore burns less coal. Don't pass judgment on your heater problems till you have seen the handsome, durable, low-cost, long-lived ILLINOY HEATER

## The ONLOOKER

HENRY HOWLAND

### The MAN with the PIPE

He sat and smoked his gurgling pipe. I heard him sadly sigh. "Now, prythee, tell me, poor old man, why are you grieved?" said I. He gazed at me and shook his head. "I've just been thinkin'," he replied. "And sadly puffed away."

"Pray tell me, poor old man," I said. "Has Fortune used you ill? Your clothes are poor and old and frayed."

"But you are living, still." "It ain't my clo's that bothers me," I heard him sadly say. "And then he filled his pipe again. And sadly smoked away."

"Prayance," I said, "you sigh because you have not won renown. Because you do not sit upon a proud height, looking down."

"The work it takes to get renown. Don't hardly make it pay. I don't care for no heights," he said. "And sadly smoked away."

"Some one you love," I said, "lies dead. Where yonder white stones gleam. And you are waiting to embark Upon the broad, dark stream."

"It ain't that. No one that I love is layin' there today." He made reply, and with a sigh. He sadly puffed away.

"Pray tell me, then, old man," I said. "Does grief assail your heart Because you may not grasp a sword And play a hero's part?"

Or do you sadly sigh because Men's greed is holding sway. Because for love of gold they put The love of worth away?"

"I've just been thinkin'," he replied. In accents of despair. "That when I go to heaven they won't Allow no smokin' there. I'll have to leave my pipe," he sighed. As only grieved men may— I went along about my tasks. He sat and smoked away.

**A Matter of Opinion.**  
"You are a good deal of a bohemian, old man, aren't you? I've always been tied down more or less—had to travel in a social rat, you know. Tell me, what is there about bohemian life that makes it peculiar? I mean to say, what is the most noticeable thing about it?"

"I should say the general homeliness of the women bohemians is the most noticeable thing; but, of course, that may be a mere matter of opinion."

**Luck.**  
"Do you think luck cuts much of a figure in the success or failure of a man nowadays?"

"Yes, I believe it does. There's Bagshaw, for instance. What show would he ever have had to live at ease and belong to clubs if he hadn't had the luck to find a banker with a daughter who was so homely that a large premium had to be offered with her?"

**CRUEL WOMAN.**  
"My wife is one of the most inconsiderate women in the world." "Why do you think so?" "She put a net over the baby's bed last night, and consequently the mosquitoes hardly gave me a chance to get a wink of sleep."

**Completely Surprised.**  
"Colonel," asked the beautiful girl, "were you ever taken completely by surprise?" "Yes," replied the grizzled warrior. "Once in a New York hotel I asked for a room with a bath, and the clerk didn't reply that they hadn't any such rooms left."

**A Merciful Man.**  
"Do you always tell your wife everything you hear?" "No. I love her too well to tell her all the old stories I am compelled to listen to at the banquets which I attend."

**He Took It.**  
"There's a man who once took an insult from me without protest." "How did it happen?" "I had cut on the handle of my umbrella the words 'You're a thief.'"

"WAR TAX" MAY BE  
LEVIED BY U. S.

To Fill Gap Caused by Loss of  
Revenue on Imports.

Washington, Aug. 12.—Administration leaders have concluded that additional revenue legislation eventually will be needed to fill the gap in the government coffers caused by loss of revenue on imports cut off by the European war. It was estimated that legislation would be framed which would complete a "war tax" of approximately \$100,000,000. While no definite plans have been determined, it is expected the tax will take the shape of a stamp import on malt and spirituous liquors, although an increased import duty on tea and coffee may be considered.

## Nebraska's Protest to Be Heard.

Washington, Aug. 12.—Baltimore's protest against the selection of Richmond as a federal reserve city was brought to Washington by counsel for the Baltimore banks. The federal reserve board advised that the appeal from the organization committee be filed Friday after the board has completed its organization. Senator Hitchcock of Nebraska also has asked the board to fix a date for hearing the claims of Nebraska to inclusion with Chicago, instead of the Kansas City federal reserve district.

## The St. Joseph Market Report.

South St. Joseph, Mo., August 11.—Live stock markets disturbed by rumors of a possible financial stringency early last week have calmed down and in place of a bearish there is a distinctly bullish feeling to the trade. Light receipts have aided materially in establishing a more satisfactory status of the market, from the sellers standpoint. Cattle which had a 15@25c drop in price early last week have since recovered lost ground and values are once more at the high point of the season, quality considered. Prices on practically all classes of cattle 10 @ 15c higher than close of last week, with a good demand ruling. Choice steers sold today at \$10.20, a record price for the year.

Hog market touched low point of the year in the excitement early last week, prices slumping 50 @ 75c a cwt., in two days. The country promptly curtailed receipts to very light proportions, conditions in the money market became more settled and there was a quick change in market sentiment prices advancing by leaps and bounds. Sales today were 10 @ 15c lower than Monday, but at that prices are \$1.40 @ 1.70 a cwt. higher than low point last Tuesday and the highest since September, 1910. Top, \$9.55; bulk of sales at \$9.15 @ 9.50.

Sheep and lambs are 25 @ 30c higher than a week ago. Receipts moderate. Good range lambs sold up to \$8.50. Ewes up to \$5.50.—St. Joseph Stock Yards Journal.

TO START ON HIGH,  
THE INTERSTATE

New Plan, Successfully Tried  
To Be Employed at  
St. Joseph.

## SOMETHING FOR SUNDAY, TOO

Pat Conway's Band, the Talkie Record  
Aggregation, Will Furnish the  
Concerts and Grand Opera.

Start in on high.  
This is the motto of the Interstate Fair and Stock Show, to be held at St. Joseph, August 20-25, and is in accord with a plan being pursued by a number of other large fairs over the country. Instead of setting the beginning date at the first of the week and then spending a day or two in getting ready for the real beginning, the fair will be made ready the first of the week and will start on Thursday—in full swing.

The first day is to be just as big as any day, and will be Soldiers and Children's Day—all veterans and their wives and the widows of veterans, and all children under 15 years of age will be admitted free.

There will be a full race program that day, and a special display of daylight fireworks for the children.

And what about Sunday? Why, a sacred concert and some grand opera for Sunday—Sunday afternoon, for the fair will not be open until noon, so as not to interfere with the church exercises of the city.

Pat Conway and his celebrated band, the one that has made more records for the Victor talking machine than any other band, has been engaged for the fair, and will give the concerts.

The regular pyrotechnic display, the Panama Canal, with ships making the passage and the attack by aeroplane, will be given at night.

## ACRES OF RED MACHINERY

Interstate Fair Is Going Strong on  
Labor-Saving Appliances for  
Farmers.

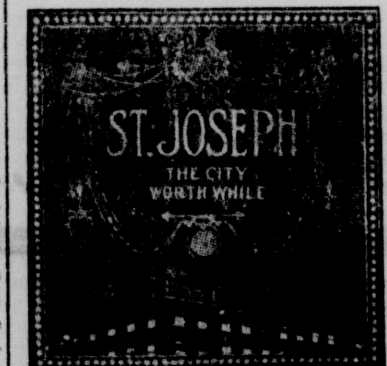

Red machinery that will take the drudgery out of farm work—both masculine and feminine farm work, mind you—will be exhibited by the acre at the Interstate Fair and Stock Show at St. Joseph, August 20-25.

Special attention is to be paid to this department of the exhibits, and visitors to the fair will find just about anything they may seek in the way of contrivances to make life down on the farm more nearly like it sounds in the poems that city folks write.

The manufacturers and sellers of farm machinery recognize the fact that they will have the opportunity of their lives to show their wares at the big fair, and are making applications for space for their displays.

The result will be something that will interest everybody who likes to get the most results from their efforts, and who don't care to wear out their physical frames in labor that iron and wood and cog wheels will do.

## 3800 LIGHTS IN ONE SIGN

One of the things that visitors to the Interstate Fair and Stock Show at St. Joseph, August 20-25 will see, is the immense slogan sign on the Corby-Forsee building. The sign is 52 feet high and 48 feet long and surmounts a 12-story building. It is supported by a steel framework like a skyscraper, and has 3,800 electric lights in it. They are of various colors and flash on and off in a brilliant effect.

The sign, which is the gift to the city from the street railway company, costs \$480 a month for electrical current alone, and uses up about \$100 worth of electric lamps every month. It is plainly seen from the fair grounds.

## LOTS OF STREET CARS.

The street car service from the city of St. Joseph to the fair grounds during the Interstate Fair and Stock Show, August 20-25, will be excellent. The cars will be plainly marked so that strangers won't go astray, and they—the cars, not the strangers—will run frequently. You may catch a car at almost any point downtown and land at the grounds in fifteen minutes.

PRICES OF FOOD  
IN U. S. BOOSTED

Continue to Rise All Over Cen-  
tral Western States.

Chicago, Aug. 12.—War prices for food continue to spread over the entire central west.

Four proposed congressional inquiries to determine why prices should go up in the face of the record-breaking harvest and the cutting off of the European markets failed to check the advance.

One of the causes given for the advance was that the farmers and stock raisers are holding their products in the hope that the demand from Europe, if it can be filled, will send prices to a new high level.

"Prices are going up no faster than the cost of raw material," said F. E. White, a director of Armour & Co.

"All classes of meat are advancing in price; this is only natural because we are now called upon to live off our own supply of cattle and hogs, and at the same time Europe wants to buy from us, being unable as yet to import from South America and Australia.

"Tinned and barreled meats, principally pork, are especially adaptable to army use. Firms manufacturing these commodities are not giving quotations on them, stocks in this country are too limited. We cannot manufacture goods fast enough for the demand. We were caught with low stocks, which means sky-high prices on these goods."

## TO PROBE FOOD PRICES

Inquiry Into Rise Is Proposed in  
House Resolutions.

Washington, Aug. 12.—Investigation of whether food prices are being arbitrarily advanced in pretext that they have been affected by the European war was proposed in two resolutions introduced by Representatives Kelly and Farr of Pennsylvania.

Representative Farr's resolution would direct Secretary Redfield to investigate the advance, particularly in flour.

Representative Kelly's directs an inquiry as to "whether the manipulation of values by speculators on the Chicago board of trade and elsewhere is resulting in unjust and unwarranted advances in the prices of foodstuffs in spite of record breaking crops in this country, and the fact that there has been little or no exportation of food supplies to Europe."

## Allied Troops Are Cheerful.

Brussels, Aug. 12.—An official statement issued by the Belgian war office states that the Germans have dispatched four forces in a westerly direction from the north of the River Meuse. The detachments, it is said, did not appear very strong and it was expected that the allied army would drive them back. Some outpost engagements were reported, in which the Germans were repulsed. The feeling among the allied troops is very cheerful and their equipment is excellent.

## Half Million Britons in Arms.

London, Aug. 12.—According to the Times, England is now well on with its mobilization and has between 500,000 and 600,000 men under arms, not counting the national reserve. "We should, therefore, view the situation with comparative equanimity," says the Times, "and not be turned from any masculine resolve by the threats of an assault by the German navy."

## Rainbow Clears For Action.

Vancouver, B. C., Aug. 12.—The naval authorities at Esquimalt say that the wreckage found on the beach at San Francisco came from the Rainbow. They have received word from Commander Rose of the Rainbow that he had cleared his ship ready for action, so that he would not be taken by surprise.

## THE FIRE COMES

ALARM TURNED IN AT NOON WITH WATER OFF.

## FOUGHT WITH BUCKETS

Futility of Trying to Check Big Blaze Shown in the Work at the Manes Home.

And today the fire came.

A great misfortune for the persons living in the house, it was a godsend to the city that it was isolated, rather than in the business section or other closely populated districts of the town. But another thing that is of grave import to Maryville still, is the fact that the utter futility of trying to fight a big blaze under the present condition of the water supply was shown.

The fire today was at the home of H. G. Manes at the end of North Mulberry street. It was discovered just at noon by Miss Verna Ale, who lives in the first house south of the Manes home.

Miss Ale was sitting down to dinner and remarked to the other members of the family that she smelled smoke. Looking out of the window she saw flames around the kitchen flue on the roof of the Manes home. She immediately turned in an alarm and then ran over to the burning house to see what could be done.

Little Girl Was Alone and Asleep. Eva Manes, the eleven year old daughter of Mr. and Mrs. Manes, was alone in the house and lying asleep on the davenport in the front room. She had been sick all morning, and after lighting the stove to cook dinner had gone into the other room to lie down. Her father and mother were both away from home working. The girl was awakened and taken away from the house.

By that time other neighbors had arrived, but all they could do was to carry the furniture out of the house, for they could get no water.

When the alarm was turned in, Manager L. A. Denny of the water company was down town. He hurried to the water tower in an automobile and opened the valve which let the water into the mains, but the gravity pressure from the tower was not enough to raise the water to the roof of the one and a half story building.

Couldn't Throw Water On Roof. The fire department ran out on Mulberry street and had to go back by way of North Main to Ninth street before a hydrant could be found with which to connect the hose. Meanwhile chemical extinguishers from the wagon and some brought in automobiles from the electric light plant were used, but they failed to put out the flames. Water was carried in buckets and tubs from neighboring wells and dirt was used in an effort to quench the blaze, but little headway was gained.

At last a lead of hose was stretched from the fire plug and the water turned on, but when the men climbed the ladder to the roof the water barely flowed over the end of the nozzle. The hose had to be brought to the ground and used for filling buckets with which the fire was fought.

At one o'clock, when the blaze had been put out, the water pressure was just beginning to increase.

The kitchen, roof and upper room of the house were damaged so as to be almost totally ruined. The house is owned by Mrs. Stella Brash of St. Louis.

Kentucky Guest to Come. Miss Alice Porter, of the Maryville Conservatory faculty, is expecting a visit from her sister, Miss Lucile, of Winchester, Ky., who will arrive the last of the week.

A Full Orchestra to Play in Calumet Hall After Concert.

The Maryville Concert band will give a benefit dance tomorrow night in Calumet Hall.

The dance will not begin until after the band's weekly Thursday night concert in the courthouse yard. A full orchestra will be provided to play for the dance.

This will be the first of a series of dances the band intends to give.

## MEET POSTPONED.

Home Department Sessions to be Called Off This Month.

The regular meeting of the home department of the Parent-Teachers association to have been held the last of the week has been called off, owing to the chautauqua dates coming at the same time.

As this was the final meeting of the season for this department of the association, its work will be consolidated with the Parent-Teachers association and the work will be taken up after the opening of the public schools and continue throughout the school year.

## HOME COMING WEEK SET.

New Dates to Avoid Conflict with M. E. Conference Are October 13 to 17.

The new dates for Maryville's Home coming are the five days from October 13 to 17. This is a week later than the time first chosen, but because of a conflict with the Missouri Conference of the Methodist Episcopal church the change was made.

The entertainment committee has been authorized to contract for amusements, invitations will be printed and placed where the town people can get them to send to friends, and the more detailed work of arranging for the week will begin soon.

## To Visit in St. Joseph.

## Home From Kansas.

Mrs. Lincoln Bent and daughter, Nina, returned yesterday from a three weeks visit with relatives and friends at Stockton, Kansas.

Mrs. Fred Jamison was operated on this morning at St. Francis hospital. She stood the operation nicely.

## SERVICE BETTERS

WATER TURNED ON FOR A TIME THIS MORNING.

## MAY START SCHEDULE

Water Tower Is Filled—Reservoir Has Gained an Inch—Sandpoint Expected Today or Tomorrow.

Maryville awoke this morning to find that she could get breakfast and wash the dishes with city water. The pressure was on for an hour or two, and in the business section most of the morning. It was then turned off, but will probably be resumed again for an hour or two at supper time.

More water was brought down the river yesterday than any previous day during the present drought. The company was able to fill the water tower by 1 o'clock this morning, running it over before the pumps could be stopped. It holds 150,000 gallons, which are being reserved for fire protection. An inch of water was gained in the reservoir yesterday.

For the next few days an effort will be made to observe a regular three-hour schedule, and water will be pumped to the city during each meal hour.

Today the men who are up the river pumping out the pools moved to a new one which contains a pretty good supply of water. This pool is about a quarter of a mile long.

The sandpoint ordered from St. Louis is expected to arrive today or tomorrow and will be sunk in the well dug as soon as it arrives. Mayor Wright said this morning that if it proved at all satisfactory he thought the city would order two or three more immediately.

J. L. Sybrant of the Ludlow Valve company, is here from Kansas City to begin the work of putting the two steel gates in the dam. At present the gateways are boarded up with plank. With the new gates in, they can be opened each year and the sediment deposited behind the dam cleaned away.

The board of public works intends to have the dredge boat, when it reaches Maryville, widen the river bed to sixty feet and deepen it to twelve feet for a distance of a mile above the dam. For some distance north of Maryville the drainage ditch will follow the bed of the river.

The members of the board are almost in constant session these days, carefully watching the situation and handling it in the best way they can.

## FELL DEAD LAST NIGHT.

Rev. A. D. Brown, Pastor of A. M. E. Church Dies Suddenly.

Daniel A. Brown, pastor of the A. M. E. church, dropped dead last night at his home 128 South Vine street. A view inquest was held by Coroner Dr. Will Wallis, Jr., who found death to be caused by organic heart failure.

Rev. Brown and his wife had just retired at about twelve o'clock. Shortly afterwards he complained of ill feeling and attempted to get up. He fell to the floor and died in a few moments and before his wife could summon help.

No arrangements will be made for the funeral until the arrival of a daughter and brother from Ottumwa, Iowa.

## Agricultural Man Here.

W. E. Pennington of the U. S. department of agriculture at Washington, D. C., is in Maryville today. In company with Prof. J. E. Cameron of the Normal agricultural department, he is visiting some of the wheat fields that were so badly infected with the Hessian fly.

## Illinois Guests Arrive.

Mrs. Mary Kinsella and daughters, Ruth, and Mr. and Mrs. J. E. Wallace of Clayton, Ill., are visiting in the city, the guests of William Helpley and Marion Kinsella and families. The visitors will remain until after the chautauqua.

## Motor to Tarkio.

Mr. and Mrs. Alfred Shackelford and family and Miss Esther Paris left this morning in the Shackelford car for Tarkio. Miss Paris has been attending the Normal and will spend the remainder of the vacation with her parents in Tarkio.

Mr. and Mrs. Paul Fraser and little son of Kansas City, arrived Saturday night for a two weeks' visit with Mr. Fraser's parents, Mr. and Mrs. Elmer Fraser. Mr. Fraser is connected with the Standard Oil Company at Kansas City.

## ROAD WORK SLACK

NODAWAY'S CAMPAIGN ENDS TODAY WITH LITTLE DONE.

## REASONS ARE GIVEN

John Clary Says Highways Should Be Widened and Tells How It Is Best Done.

Today ends Nodaway County two days of good roads work, and very little work has been done on the whole.

Only in a few districts has anything been done, and even in them it has been hard to work up much enthusiasm. C. G. Swinford, B. T. Wray and C. B. Leach, members of the Union township board, made a call for laborers, but not very much was accomplished yesterday. Today some more interest has been taken in the movement.

The most work has been done near Conception under the direction of William Corcoran.

For the most part, however, the roads have been untouched, the weeds are still growing high along them, and nobody seems to pay any attention to the campaign.

As far as can be learned, J. Arthur Wray is the only Maryville man who offered to work on the roads.

Several reasons are given for the lack of interest in the road work here. The first is that the movement has never aroused a great amount of enthusiasm. Another is that the farmers of the county have given much of their time to hauling sand, cement and dirt and in making fills for the township and county work that is going on this year.

Other farm work, together with the fact that this is a bad time of year for grading the roads or doing much of anything with them that will disturb the dirt also, discouraging great activity in the campaign.

The suggestion of the state highway commissioner Buffum that roads be widened to forty feet is strongly indorsed by John Clary, county highway engineer. Mr. Clary says that the roads are too narrow and too high and too soft in the center. From now on until winter he says, the roads should be worked in the following manner: Enough furrows should be plowed at each side to widen them to the proper width. This dirt and sod should be left to rot all winter. Then in the spring it can be graded and dragged over the roads without filling them with clods, stubble and trash.

## WATER FLOODS SCHOOL.

Plumbing in Franklin Building Left Open Last Night and Basement Is Soaked.

When the workmen who are repairing the Franklin school building quit last night they left the plumbing connections open and when the city water was turned on the building was flooded.

This morning the janitor found the water running from the faucets and pipes. The hall floor and some of the basement rooms were filled with an inch or two of water.

## To Visit in Illinois.

Miss Bessie Ale left today for Monmouth, Ill., to visit until September 1, when she will go to Little York, Ill., to teach in the public school. This will be the third year's teaching at Little York for Miss Ale.

## On Northern Trip.

## Jones-Westbrook.

The marriage of Miss Marie A. Jones and Mr. Wellington M. Westbrook took place this afternoon at the home of the bride's mother, Mrs. J. L. Jones, 625 West First street. On account of the recent bereavement of the family in the death of the bride's father, Rev. J. L. Jones, the wedding arrangements were observed very simply and only the relatives and a few close friends attended.

The ceremony was performed at 3:45 o'clock, the Rev. Lewis M. Hale, pastor of the First Baptist church, reading the ring service. The home decorations were carried out in green and white, ferns and white blossoms being used. Preceding and during the ceremony, Miss Alice Porter played "Meditation" from Thal's. The bride was attired in simply fashioned gown of white brocade crepe and carried a shower bouquet of white roses and valley lilies. Her going away gown was of black chiffon broad cloth and with it was worn a small black velvet hat. The relatives and friends who witnessed the ceremony were the bride's grandmother, Mrs. Henry Tool of Des Moines, Ia., Mrs. Lewis Jones of Enid, Okla., Mr. and Mrs. John Herren, Mr. and Mrs. Will Tool, Mr. and Mrs. George Greeson of Graham, Mr. and Mrs. Raymond Jones, Mr. and Mrs. Alfred Jones, Mr. and Mrs. Ray Masters, Rev. and Mrs. Lewis M. Hale, Mr. and Mrs. Bruce Montgomery, Mr. and Mrs. George Tool of St. Joseph, Miss Brownie Tool, Miss Alice Porter, Miss Hazel Everhart, Prof. P. O. Landon, George Herren, Will Montgomery, Dr. E. C. Braniger and G. B. Holmes, Jr. Immediately after the ceremony the newly weds left on the Burlington train for a Southern trip. They will be at home after September 1, at 625 West First street. The bride has been a member of the Maryville Conservatory faculty several years and is one of the most talented and attractive young women in the city. After completing her work in the city high school, she was graduated from the Conservatory in which later she was a teacher and then went to Chicago where she studied at the Chicago Conservatory under the best voice instructors, commencing (Continued on Page 3)

## MOVES TOWARD ALLIES

Russian Commander Orders Flies To Quit Towns—Ships Stop Because of German Mines in Sea.

(By American Press.)

Brussels, via London, August 11—The German army is moving by details from its position before Liege and is advancing through a part of Belgium. The main body of the German cavalry is engaged in a forward movement along the frontier guarded by the allied armies.

London, August 11—The Russian commander of the fortress at Seborg, Finland, has ordered all the inhabitants of that place and of Helsingford to leave. He issued these orders in the belief that a battle or heavy bombardment is imminent.

The Copenhagen correspondent of the London Daily Mail reports as certain the sinking of a German torpedo boat off South Godser, August 5. The cause of the boat's destruction is not certain, however, but it is believed to have been due to a boiler explosion or to a mine laid by a German warship.

All Danish and Swedish steamers have stopped running as a result of the information that the Germans have filled the sea with mines.

## FARNAN FUNERAL TOMORROW

Services To Be Held Thursday Morning at Conception Abbey.

The funeral services of William Farnan, the son of Mr. and Mrs. Farnan, of Clyde, who died Tuesday afternoon, will be held at ten o'clock tomorrow morning at Conception Abbey. The interment will be made in Conception cemetery.

The deceased was seventeen years old and was the youngest one of the family. He leaves besides his parents four brothers, Christopher, Charles, Joseph and Mathew, Jr., all living near Clyde.

## AUTO NEARLY DESTROYED

Catches Fire From Engine—Top Is Burned Off and Car Damaged.

## FRENCH ADVANCE CHECKED

### French and German Armies In Contact.

### EVACUATE MUELHAUSEN

French Invaders Take Up Positions Outside.

### PARIS HEARS OF VICTORIES.

#### WAR NEWS SUMMARIZED.

German forces are making careful reconnaissance in the district of Hesbaye, which is believed to mean that Germany will take the offensive north of Liege.

The German cruisers Goeben and Breslau, for which British and French warships were waiting, have taken refuge in the Dardanelles. Clashes between Austrians and Russians so far have been of minor importance.

A Copenhagen dispatch announces that Russian mobilization will be complete on Aug. 21.

Several Australian warships have joined the British squadron in east Asiatic waters.

Recruiting goes on in London for overseas service.

The Cunard liner Lusitania, in its dash across the Atlantic, has reached the Mersey in safety.

London, Aug. 12.—Two salient points emerge from the latest news of the great war. The first and most striking is what is described here as "the silent victory."

This applies to the fact that the North sea, over which absolute silence has brooded so long, is now open to shipping without serious danger. The steamship services from Denmark to London and from Newcastle to Norway are being resumed while the steamship services between the Hook of Holland and Harwich have suffered no interruption.

These facts, in the opinion of the authorities here, imply that the German fleet for the time being is safely held in check.

The second point is that the French have been obliged to evacuate Muelhausen and occupy new positions outside the town.

According to German reports this was the first important battle of the campaign and the French, who had 55,000 men, suffered a serious check. In Belgium the position shows little change.

The Germans have occupied Tongres and are reported to have captured a railway station twenty-four miles from Liege. Outpost affairs of no great importance are reported at different points of the many nations engaged in the war.

#### Fighting All Along Line.

Paris, Aug. 12.—The French troops along the entire front are in contact with the Germans. At Mangelennes, northeast of Verdun, the Germans attacked the French. The French, reinforced by reserves, then took the offensive and repulsed the Germans with considerable losses. One German battery was destroyed by the French artillery fire, and another was captured, with three Gatling guns and ammunition.

A regiment of German cavalry suffered seriously. Near Moncel, a German battalion, with artillery, was repulsed. The German losses are said to be heavy.

The village of Lagarde, in German territory, was taken by the French at the point of the bayonet.

German forces appeared at Longwy and demanded the surrender of the town, which was refused.

#### Plans Raid on U. S. Gold Supply.

New York, Aug. 12.—The most interesting report in the financial district was the rumor that the Bank of England proposes establishing a branch at Ottawa, Canada. Bankers here see in such a move what they call an attempt on the part of the great British institution to pile up large amounts of credit with this country which we may have to pay in gold shipments to the Dominion.

#### Coast Defense Guns Are to Practice.

New York, Aug. 12.—Colonel S. E. Allen, coast defense commander at Fort Hancock, Sandy Hook, N. J., gave warning to shipping interests that there will be target practice next Tuesday night with the great coast defense guns and mortars at the fort.

#### Yankee Woman to Join Red Cross.

London, Aug. 12.—Mrs. George Law of New York left London by automobile, bound for Havre. It is her intention to join the French Red Cross.

## MINING OF NORTH SEA SHUTS PORTS

Indiscriminate Planting of Mines  
Makes Navigation Unsafe.

### TREASURE SHIPS IN DANGER.

Returning Tourists May Now Have to Make Their Way to Southern Ports or Remain Where They Are—Neutral Ports Are Blockaded.

Washington, Aug. 12.—Mining of the North sea as part of the plan of the European war not only may close most of the northern European ports to navigation, but the golden laden cruisers Tennessee and North Carolina and neutral passenger vessels bearing Americans from Europe, will be confronted with new dangers.

The American government was formally advised by the British embassy that inasmuch as Germany had been "scattering mines indiscriminately," Great Britain could no longer refrain from planting mines near its own ports.

Secretary Bryan said Americans at home might rest assured that the passenger lines plying between northern European ports would take no chances that would imperil life.

#### Americans Must Remain.

It is believed that Americans in northern ports will remain there for the present or make their way south and southeast to such ports as Marseilles or Lisbon to obtain passage for the United States. An itinerary for the cruisers Tennessee and North Carolina bearing millions in gold for the relief of Americans has never been announced, but as both Great Britain and Germany have given warning of the dangers in the North sea it is being taken for granted here that none of the American warships will venture into those waters. After touching at Falmouth, England, the treasure ships probably will head for some port in France and then head for the Mediterranean, endeavoring, it is thought, to reach Americans in both Germany and Austria from points in the Adriatic.

#### Neutral Ports Mined.

One diplomatist pointed out that the ports of four neutral nations, Norway, Sweden, Denmark and the Netherlands as well as one of the belligerents—Belgium—were practically blockaded through the promiscuous planting of mines in the North sea. The Hague convention, which regulates the use of contact mines, stipulates that the belligerents shall undertake to their utmost to render these mines harmless within a limited time, and should they cease to be under surveillance to notify the danger zones, as soon as military exigencies permit. Naval observers here believe, however, that in view of the titanic struggle this article in the convention will be of little moment.

### PRESIDENT'S WIFE BURIED

Rain Falls in Torrents as Coffin Is Lowered Into Grave.

Rome, Ga., Aug. 12.—Mrs. Woodrow Wilson, wife of the nation's president, was buried here at Myrtle Hill cemetery. Rain fell in torrents while the coffin was being lowered into the grave, which is beside those of Mrs. Wilson's father and mother, almost within sight of the house in which she lived as a girl.

President Wilson remained by the grave until the casket had been covered with concrete and steel. At the head of the grave there stands a plain white stone, bearing the names of Mrs. Wilson's father and mother. It is understood the president later will have a larger monument erected.

As the president returned to his private car he passed between double lines of national guardsmen.

#### House Passes Railway Mail Bill.

Washington, Aug. 12.—By a vote of 163 to 81 the house struck out of the railway mail bill the Cullup amendment removing all assistant postmasters, clerks and employees in local postoffices from civil service. The bill was then passed. It revises the present system of computing compensation of railroads carrying the mail and prescribes an examination for all present assistant postmasters.

#### England Bars Landing of Foreigners.

Washington, Aug. 12.—Reports that Great Britain has forbidden the landing of all foreigners on its shores caused Secretary Bryan to cable Ambassador Page instructions to investigate, and if he finds that they are true to lodge an urgent protest with the British foreign office.

#### 45,000 Japs Embark on Transports.

Shanghai, Aug. 12.—The captain of a Japanese vessel which arrived here reported that 45,000 Japanese soldiers had embarked on transports and were awaiting orders. He said he believed their destination was Tsingtau, the German possession in China.

#### Americans Assisted.

Copenhagen, Aug. 12.—It is announced from Berlin that 25,000 Americans, whose journeys were interrupted by the war, are within the German frontier. Many are without resources, but are being assisted so far as available means permit.

## Chautauqua Next Saturday

EVERYTHING will be in ship shape for the opening of the assembly next Saturday the 15th. On that day the program will be given by the Dixie Jubilee Singers and Dr. Thos. Green in the afternoon and at night a complete program by the Dixies. On Sunday morning the 16th there will be a grand union of all Sunday Schools of the City and County at 9:30, afterwards a union church service. Everybody invited to these services and no admittance charged. The afternoon will bring Dr. Green and the Dixies and at night Mrs. Leonora M. Lake. The charge for afternoon and night, both programs, is 35c. There are a few of the 100 Season Tickets at \$1.75 and \$1.00 on sale at the Conservatory. None will be sold at that price after Friday the 14th.

#### Platte Valley.

We need rain very badly here in the valley.

Miss Effie Richards returned home Monday from the summer term of the Maryville state normal. She will teach the Pleasant View school north-east of Guilford this winter.

Nearly every one of the citizens of the valley attended the Barnard picnic one or two days.

Thill Breit had a new cement cave, 6 x 12, built on his place last week. James Jackson of Bolckow was the workman.

Dan Skidmore's new house is going up rapidly. Sern Nelson, K. C. Knudson, George Jackson, Al Hailey and Claude Richards are doing the carpenter work.

Mike Hyorgo's new house is being plastered now.

E. Halfhill moved a barn for F. P. Graham in Old Guilford one day last week.

W. B. Torrance is hauling sand now. He is going to put in a cement foundation under his house and plaster it.

John Brinson and family, who live west of Bolckow, visited Saturday evening and Sunday at K. C. Knudson's.

Born to Mr. and Mrs. James Neilson a girl, Friday morning.

Glen Lincoln cut three of the fingers of his right hand nearly off on a circle saw one day last week. He is getting along very well.

On Monday thirty autos from King City passed through Guilford advertising the King City chautauqua. They went on toward Stanberry.

Mr. and Mrs. Leslie Scheldtknecht returned Monday from a ten days' visit in Trenton, Mo., with relatives.

Alma Nelson who had spent the spring and summer in St. Louis and Springfield returned home Saturday.

John Hawley, son of Eber Hawley of Worth, Mo., returned Monday to St. Joseph to his work in a large department store, after a visit with relatives and friends in Guilford.

John R. Hubble and James Hubble returned last week from a trip to Indiana. They say it is dry back there.

The ladies of the Arko Methodist church will have an ice cream social Friday night, August 14. Everyone cordially invited.

#### To Visit in St. Joseph.

William Osborne left today for St. Joseph to spend a few days on business.

#### Home to Clarinda.

Mrs. Orloff Clark left last night for her home at Clarinda, after a short visit with her mother, Mrs. Ida Holoday.

#### Whom the Gods Would Destroy.

Ancient history closed at midnight of July 31, 1914. The monstrous war with which modern history begins will end, as the big and little wars of the old days did. This is hard to realize now, but the sooner those men upon whom will fall the duty of shaping a new order of things begin to think about their problem, the better it will be for all concerned.

There will be some accounts to be settled after peace is declared, and the biggest one will be that which Enlightenment has against Mediaevalism.

Whatever causes of strife may have been lurking in the minds of the peoples of Europe, they would not have massed and exploded in this demonic war without the agency of the Head Devils. Race differences there are. Conflicting national interests there are. The growth of populations already dense, and looking for new opportunities for enterprise and livelihood, has been disturbing economic equilibrium. Religious antagonisms have fostered hatred. But none of these things by itself, nor all of them in combination, would have made war if the consuming vanity, the monstrous egotism and the mediaeval-mindedness of the absolute monarchs had not been thrown into the scale.

When the work of devastation is done there will be left the stricken, sobered peoples. Every family will have lost father or son, husband or brother. Resources will have been swept away. Industry will have been paralyzed. Farms will have been stripped, villages, towns and cities desolated. But fortitude and courage will be left, and men will get themselves about the task of building a new civilization.

They will not be tolerant of pious hypocrites asserting divine right, and claiming to be viceagents of God. They will not be tolerant of taxes for the wanton expenditures of royal families. They will not deprive themselves of the necessities of life to enrich the manufacturers of artillery and powder. They will cross these items from their ledgers, and turn their attention to the creation of a social order under which men and women who are content to dwell peacefully on their own reservations can enjoy liberty and pursue happiness.

Whom the gods would first destroy they first make mad. Mad with the lust of power, drunk with their own egotism, the Head Devils have signed their own doom. Their days are numbered. The monarchs must go—and they will.—The Independent.

## WHY THE ILLINOY IS BEST

### Cold Weather Terrors Need Not Exist

with an ILLINOY HEATER. It is heater perfection. It supplies super-heated air to fire-box, burns all the volatile gases and carbon, cokes the unburned coal, prevents loss through imperfect combustion; keeps up perfect circulation of warm air in room—draws air from floor and discharges hot air from top. Burns all fuel perfectly; therefore burns less coal. Don't pass judgment on your heater problems till you have seen the handsome, durable, low-cost, long-lived ILLINOY HEATER

## The ONLOOKER

HENRY HOWLAND

### The MAN with the PIPE

He sat and smoked his gurgling pipe. I heard him sadly sigh. "Now, prythee, tell me, poor old man, why are you grieved?" said I. He smiled at me and shook his head. Yet motioned me to stay. "I've just been thinkin'," he replied. And sadly puffed away.

"Pray tell me, poor old man," I said. "Has Fortune used you ill? Your clothes are poor and old and frayed—

But you are living, still." "I ain't my clo's that bothers me," I heard him sadly say. And then he filled his pipe again. And sadly smoked away.

"Don't fret," I said, "you sigh because you have not won renown. Because you do not sit upon a proud height, looking down." "The work it takes to get renown I don't hardly make it pay. I don't care for no heights," he said. And sadly smoked away.

"Some one you love," I said, "lies dead Where yonder white stones gleam. And you are waiting to embark Upon the broad, dark stream?" "It ain't that. No one that I love is layin' there today." He made reply, and with a sigh. He sadly puffed away.

"Pray tell me, then, old man," I said. "Does grief assail your heart? Because you may not grasp a sword And play a hero's part? Or do you sadly sigh because Men's greed is holding sway. Because for love of gold they put The love of worth away?"

"I've just been thinkin'," he replied. In accents of despair. "That when I go to heaven they won't Allow no smokin' there; I'll have to leave my pipe," he sighed. As only grieved men may— I went along about my tasks. He sat and smoked away.

## A Matter of Opinion.

"You are a good deal of a bohemian, old man, aren't you? I've always been tied down more or less—had to travel in a social rut, you know. Tell me, what is there about bohemian life that makes it peculiar? I mean to say, what is the most noticeable thing about it?"

"I should say the general homeliness of the women bohemians is the most noticeable thing; but, of course, that may be a mere matter of opinion."

## Luck.

"Do you think luck cuts much of a figure in the success or failure of a man nowadays?"

"Yes, I believe it does. There's Bagshaw, for instance. What show would he ever have had to live at ease and belong to clubs if he hadn't had the luck to find a banker with a daughter who was so homely that a large premium had to be offered with her?"

## CRUEL WOMAN.

"My wife is one of the most inconsiderate women in the world."

"Why do you think so?"

"She put a net over the baby's bed last night, and consequently the mosquitoes hardly gave me a chance to get a wink of sleep."

## Completely Surprised.

"Colonel," asked the beautiful girl, "were you ever taken completely by surprise?"

"Yes," replied the grizzled warrior. "Once in a New York hotel I asked for a room with a bath, and the clerk didn't reply that they hadn't any such rooms left."

## A Merciful Man.

"Do you always tell your wife everything you hear?"

"No. I love her too well to tell her all the old stories I am compelled to listen to at the banquets which I attend."

## He Took It.

"There's a man who once took an insult from me without protest."

"How did it happen?"

"I had cut on the handle of my umbrella the words 'You're a thief.'"

"WAR TAX" MAY BE  
LEVIED BY U. S.

To Fill Gap Caused by Loss of  
Revenue on Imports.

Washington, Aug. 12.—Administration leaders have concluded that additional revenue legislation eventually will be needed to fill the gap in the government coffers caused by loss of revenue on imports cut off by the European war. It was estimated that legislation would be framed which would complete a "war tax" of approximately \$100,000,000. While no definite plans have been determined, it is expected the tax will take the shape of a stamp import on malt and spirituous liquors, although an increased import duty on tea and coffee may be considered.

## Nebraska's Protest to Be Heard.

Washington, Aug. 12.—Baltimore's protest against the selection of Richmond as a federal reserve city was brought to Washington by counsel for the Baltimore banks. The federal reserve board advised that the appeal from the organization committee be filed Friday after the board has completed its organization. Senator Hitchcock of Nebraska also has asked the board to fix a date for hearing the claims of Nebraska to inclusion with Chicago, instead of the Kansas City federal reserve district.

## The St. Joseph Market Report.

South St. Joseph, Mo., August 11.—Live stock markets disturbed by rumors of a possible financial stringency early last week have calmed down and in place of a bearish there is a distinctly bullish feeling to the trade. Light receipts have aided materially in establishing a more satisfactory status of the market, from the sellers standpoint. Cattle which had a 15@25c drop in price early last week have since recovered lost ground and values are once more at the high point of the season, quality considered. Prices on practically all classes of cattle 10@15c higher than close of last week, with a good demand ruling. Choice steers sold today at \$10.20, a record price for the year.

Hog market touched low point of the year in the excitement early last week, prices slumping 50@75c a cwt., in two days. The country promptly curtailed receipts to very light proportions, conditions in the money market became more settled and there was a quick change in market sentiment prices advancing by leaps and bounds. Sales today were 10@15c lower than Monday, but at that prices are \$1.40@1.70 a cwt. higher than low point last Tuesday and the highest since September, 1910. Top, \$9.55; bulk of sales at \$9.15@9.50.

Sheep and lambs are 25@30c higher than a week ago. Receipts moderate. Good range lambs sold up to \$8.50. Ewes up to \$5.50.—St. Joseph Stock Yards Journal.

TO START ON HIGH,  
THE INTERSTATE

New Plan, Successfully Tried  
To Be Employed at  
St. Joseph.

## SOMETHING FOR SUNDAY, TOO

Pat Conway's Band, the Talkie Record Aggregation, Will Furnish the Concerts and Grand Opera.

## Start in on high.

This is the motto of the Interstate Fair and Stock Show, to be held at St. Joseph, August 20-25, and is in accord with a plan being pursued by a number of other large fairs over the country. Instead of setting the beginning date at the first of the week and then spending a day or two in getting ready for the real beginning, the fair will be made ready the first of the week and will start on Thursday—in full swing.

The first day is to be just as big as any day, and will be Soldiers and Children's Day—all veterans and their wives and the widows of veterans, and all children under 15 years of age will be admitted free.

There will be a full race program that day, and a special display of day-light fireworks for the children.

And what about Sunday? Why, a sacred concert and some grand opera for Sunday—Sunday afternoon, for the fair will not be open until noon, so as not to interfere with the church exercises of the city.

Pat Conway and his celebrated band, the one that has made more records for the Victor talking machine than any other band, has been engaged for the fair, and will give the concerts.

The regular pyrotechnic display, the Panama Canal, with ships making the passage and the attack by aeroplane, will be given at night.

## ACRES OF RED MACHINERY

Interstate Fair Is Going Strong on Labor-Saving Appliances for Farmers.

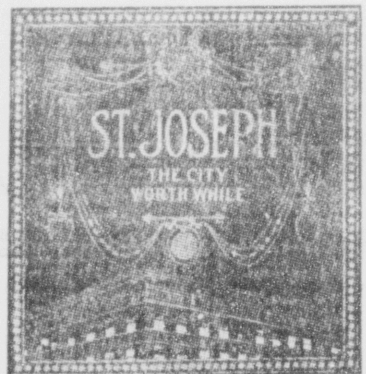

Red machinery that will take the drudgery out of farm work—both masculine and feminine farm work—mind you—will be exhibited by the acre at the Interstate Fair and Stock Show at St. Joseph, August 20-25.

Especially attention is to be paid to this department of the exhibits, and visitors to the fair will find just about anything they may seek in the way of contrivances to make life down on the farm more nearly like it sounds in the poems that city folks write.

The manufacturers and sellers of farm machinery recognize the fact that they will have the opportunity of their lives to show their wares at the big fair, and are making applications for space for their displays.

The result will be something that will interest everybody who likes to get the most results from their efforts, and who don't care to wear out their physical frames in labor that iron and wood and cog wheels will do.

## 3800 LIGHTS IN ONE SIGN

One of the things that visitors to the Interstate Fair and Stock Show at St. Joseph, August 20-25 will see, is the immense slogan sign on the Corby-Forsee building. The sign is 52 feet high and 48 feet long and surmounts a 12-story building. It is supported by a steel framework like a skyscraper, and has 3,800 electric lights in it. They are of various colors and flash on and off in a brilliant effect.

The sign, which is the gift to the city from the street railway company, costs \$480 a month for electrical current alone, and uses up about \$100 worth of electric lamps every month. It is plainly seen from the fair grounds.

## LOTS OF STREET CARS.

The street car service from the city of St. Joseph to the fair grounds during the Interstate Fair and Stock Show, August 20-25, will be excellent. The cars will be plainly marked so that strangers won't go astray, and they—the cars, not the strangers—will run frequently. You may catch a car at almost any point downtown and land at the grounds in fifteen minutes.

PRICES OF FOOD  
IN U. S. BOOSTED

Continue to Rise All Over Central Western States.

Chicago, Aug. 12.—War prices for food continue to spread over the entire central west.

Four proposed congressional inquiries to determine why prices should go up in the face of the record-breaking harvest and the cutting off of the European markets failed to check the advance.

One of the causes given for the advance was that the farmers and stock raisers are holding their products in the hope that the demand from Europe, if it can be filled, will send prices to a new high level.

"Prices are going up no faster than the cost of raw material," said F. E. White, a director of Armour & Co.

"All classes of meat are advancing in price; this is only natural because we are now called upon to live off our own supply of cattle and hogs, and at the same time Europe wants to buy from us, being unable as yet to import from South America and Australia."

"Tinned and barreled meats, principally pork, are especially adaptable to army use. Firms manufacturing these commodities are not giving quotations on them, stocks in this country are too limited. We cannot manufacture goods fast enough for the demand. We were caught with low stocks, which means sky-high prices on these goods."

## TO PROBE FOOD PRICES

Inquiry Into Rise Is Proposed in House Resolutions.

Washington, Aug. 12.—Investigation of whether food prices are being arbitrarily advanced in pretext that they have been affected by the European war was proposed in two resolutions introduced by Representatives Kelly and Farr of Pennsylvania.

Representative Farr's resolution would direct Secretary Redfield to investigate the advance, particularly in flour.

Representative Kelly's directs an inquiry as to "whether the manipulation of values by speculators on the Chicago board of trade and elsewhere is resulting in unjust and unwarranted advances in the prices of foodstuffs in spite of record breaking crops in this country, and the fact that there has been little or no exportation of food supplies to Europe."

## Allied Troops Are Cheerful.

Brussels, Aug. 12.—An official statement issued by the Belgian war office states that the Germans have dispatched four forces in a westerly direction from the north of the River Meuse. The detachments, it is said, did not appear very strong and it was expected that the allied army would drive them back. Some outpost engagements were reported, in which the Germans were repulsed. The feeling among the allied troops is very cheerful and their equipment is excellent.

## Half Million Britons in Arms.

London, Aug. 12.—According to the Times, England is now well on with its mobilization and has between 500,000 and 600,000 men under arms, not counting the national reserve. "We should, therefore, view the situation with comparative equanimity," says the Times, "and not be turned from any masculine resolve by the threats of an assault by the German navy."

## Rainbow Clears For Action.

Vancouver, B. C., Aug. 12.—The naval authorities at Esquimalt say that the wreckage found on the beach at San Francisco came from the Rainbow. They have received word from Commander Hose of the Rainbow that he had cleared his ship ready for action, so that he would not be taken by surprise.
